### Technical Information

#### Corrosion resistance

Meets the requirements of BS EN 1670:2007 Grade 5 (480 hours)

#### Operation

Endurance tested in excess of 50,000 cycles

#### Performance

Tested to meet the requirements of PAS 24:2012 as part of a compliant window

### Material Specification

Handle Grip and Backplate: High quality Zinc for all finishes

### Maintenance

For continued protection of the quality finish and appearance, Fab&Fix advise routine cleaning of all our external hardware. Moving parts should also be lightly lubricated at least twice a year. This procedure is particularly essential if products are used within a 25-mile radius of coastal areas or close proximity to building sites or large industrial areas, where more frequent cleaning may be required to prevent the accumulation of corrosive contaminants.

### Packaging

#### Handles

Individually bagged with screws, spindle and care instructions.

All dimensions are in mm and are nominal.

Fab&Fix reserves the right to change specification without notice  
It is the responsibility of the window manufacturer to ensure that the finished product meets any required safety and performance specification.
